1. The reply filed on 3/28/2007 is not fully responsive to the prior Office Action because: Newly submitted claims 24, 30-35 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Original claims 24-29 were drawn to a method of treatment with MIP-1 $\alpha$ . On 12/28/2006, Applicants received an office action based on these claims. In the response to the office action filed 3/28/2007, Applicants have amended claim 24 to claim a different method with different steps, materials and goals and added new claims 30-35 that are drawn to a method not previously examined.

Since Applicants have received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 24, 30-35 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
